

NV Energy is your partner in saving energy & money.

SOUTHERN NEVADA

We work hard to provide our customers affordable energy service. Plus, a variety of energy efficiency options and bill assistance programs are available to offset seasonal high bills and empower customers to control their energy costs.

ASSISTANCE PROGRAMS

Project REACH (*Relief through Energy Assistance to Prevent Customer Hardships*)

Financial support for southern Nevada residents who are 62 years of age or older, meet income guidelines and are experiencing economic hardship.

nvenergy.com/assistance

Nevada Energy Assistance Program

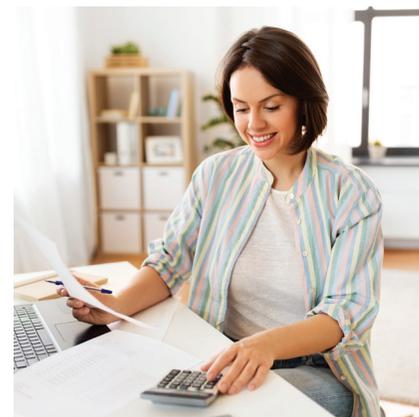

Income-qualifying Nevadans can receive a supplement to assist with the cost of home energy. This is an annual payment made to the utility on your behalf.

dwss.nv.gov/Energy/1_Energy_Assistance/

Nevada 211

This statewide system connects callers to free information about crucial health and human services available in their community.

PAYMENT PROGRAMS

Equal Pay

Take charge of your finances and know ahead of time your energy costs for the month. With Equal Pay, you pay the same amount every month and avoid high bills associated with extreme weather.

nvenergy.com/equalpay

FlexPay

You decide how much and when to prepay for your energy so you can better plan around your lifestyle, schedule and budget - no deposit, credit check or late fees.

nvenergy.com/flexpay

Select Your Due Date

Our Select Your Due Date service lets you choose the monthly payment date that works best for you, so you can better plan and budget.

POWERSHIFT PRODUCTS & SERVICES

Qualified Appliance Replacement

This free service helps NV Energy's residential customers who meet income eligibility requirements replace select older, inefficient refrigerators and electric dryers with newer, more energy-efficient models. Customers will also receive free installation of other energy saving products.

nvenergy.com/qar

Air Conditioner Replacement

Provides an instant discount off the price of a qualifying new energy efficient AC unit. Discounts for income qualified customers range between \$850 and \$1,800.

nvenergy.com/ac

AC Tune-up

Income qualified customers can receive a free air conditioning tune-up. This increases the system's efficiency, which may extend the equipment life, prevent costly and unforeseen repairs, as well as save more energy and money.

Energy-Saving Tips

- Keep your thermostat set at 78 degrees when you are home, and several degrees higher at night or when you are not home.
- Close blinds and drapes during the day to keep the heat out.
- Turn off lights and appliances when not in use.
- Use your dishwasher, clothes washer and dryer before 5 pm or after 9 pm. These appliances add heat to your home and make your AC work harder.
- If your AC unit is on the ground, keep the area around it clean and free of obstructions to maintain air flow to help it work more efficiently.
- Keep your freezer as full as possible. You can place containers filled with water in the empty spaces.
